

Registration form for Special Educational Event!

"In the beginning ... there was *Criation*"

by **Dr. Sherry Smith**, Dunnville Veterinary Clinic.

This workshop will cover information about how to prepare for birthing (including pre-birth vaccinations, what should be in your "birthing kit", etc.), what the birthing process itself will look like (and how long each stage should last), and how to care for dam and cria after birth. Dr. Sherry will discuss what is "normal" and when you need to call for veterinary assistance. She will also address special requirements for fall or winter births as compared to spring or summer births.

Saturday November 12, 2016 from 1-4pm

Being held at Brock University (directions to follow)

Farm Name: _____

Participant(s): _____

Address: _____

City: _____ Province: _____ Postal Code: _____

Phone: _____ Cell: _____
