How does the auction work?

The bidding works much the same as a sealed bid. You select the colour, grade and length you wish to purchase, decide on the highest price you are willing to pay, as well as the amount of fibre you wish to purchase (in pounds) and submit your offer. The highest price wins the bid. If there is more fleece than you have requested in that category, it will go to the next highest bid. We will ask a down payment of 50% from the winning buyers. If there is not sufficient fleece for your request, the appropriate amount will be returned to you. Good luck and thank you for your participation.
